About Me:

I'm a 22-year-old student of animation at Unitedworld Institute of Design (UID), Gandhinagar, pursuing my Bachelors'. I specialise in background design, colourkeys, lighting and storyboarding. I've experience in animatics, 2D animation, and video editing as well. I have a lot to say but people won't listen, so I'm here to make them see it. I try to draw inspiration from the elements of day to day life and incorporate them in my work, for example the sound that we hear or the environment we are into or the situations we encounter.
