Tushar Patil

PROFILE

An enthusiastic, results-driven developer with strong design, development, and implementation skills for cutting-edge software solutions. demonstrated capacity to work both independently and cooperatively in a team setting to produce high-quality code on schedule and within budget. competent in a number of programming languages and frameworks, including **Android Studio with Java, Asp.net with MVC, C++, Python, and databases such as MySQL and Oracle**. Eager to apply technical skills to real-world projects and contribute to team success in a dynamic environment. My academic projects have provided me with a solid understanding of algorithms, data structures, and object-oriented programming, which I apply to solve complex problems efficiently. Strong problem-solving abilities, attention to detail, and a passion for continuous learning, where I can use my knowledge and abilities to create software solutions that have an impact.

PROJECTS

QC Chat

Technology: Android studio with java

This software is built on employee conversation at a certain organization. This app's primary benefit is that employees don't need to know each other's contact details.

Waste Management System

Technology: Asp.net with C#

This system has 3 panels: admin, volunteer, and user. It allows users to remove waste from a specific location and link to the collecting center.

Pharmacy Management System

Technology: Asp.net with C#

Retailers can manage all of the invoicing information and sell medicine to small senders through the pharmacy management system.

ACHIEVEMENTS & ACTIVITIES

- Winner of the mecia hack 2.0 Hackathon.
- Winner of the codemanthan Hackathon.
- Organizer of Kartclash.
- Head of Technovity.
- Volunteer of Vyom Techfest.
- Participant in the national-level Hackathon.
